

TROPICAL CYCLONE BULLETIN NR. 2

Tropical Storm DINDO (JONGDARI)

Issued at 5:00 AM, 19 August 2024

Valid for broadcast until the next bulletin at 11:00 AM today.

TROPICAL DEPRESSION “DINDO” HAS INTENSIFIED INTO A TROPICAL STORM.

Location of Center (4:00 AM)

The center of Tropical Storm DINDO was estimated based on all available data at **640 km Northeast of Itbayat, Batanes (25.0°N, 126.1°E)**

Intensity

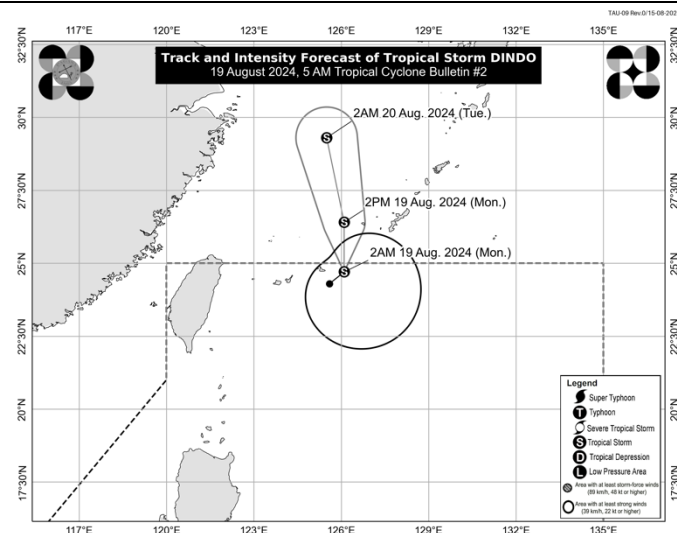

Maximum sustained winds of **65 km/h** near the center, gustiness of up to **80km/h**, and central pressure of **1000 hPa**

Present Movement

Northeastward at 10 km/h

Extent of Tropical Cyclone Winds

Strong to gale-force winds extend outwards up to **320 km** from the center

TRACK AND INTENSITY FORECAST

Date and Time	Center Position		Location	Intensity		Movement dir. and speed (km/h)
	Lat. (°N)	Lon. (°E)		MSW (km/h)	Cat.	
12-Hour Forecast 2:00 PM 19 August 2024	26.4	126.1	760 km Northeast of Itbayat, Batanes (OUTSIDE PAR)	65	TS	N 15
24-Hour Forecast 2:00 AM 20 August 2024	29.3	125.5	1,015 km North Northeast of Extreme Northern Luzon (OUTSIDE PAR)	65	TS	N 25

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT

No Wind Signal hoisted at this time.

OTHER HAZARDS AFFECTING LAND AREAS

DINDO is unlikely to directly affect the weather condition in the country within the forecast period.

HAZARDS AFFECTING COASTAL WATERS

DINDO and the Southwest Monsoon will bring moderate seas (1.0-2.0 m) over the coastal waters of Extreme Northern Luzon. **Mariners of motor bancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigating in these conditions, especially if inexperienced or operating ill-equipped vessels.**

TROPICAL CYCLONE BULLETIN NR. 2 **Tropical Storm DINDO (JONGDARI)**

Issued at 5:00 AM, 19 August 2024

Valid for broadcast until the next bulletin at 11:00 AM today.

TRACK AND INTENSITY OUTLOOK

- DINDO is forecast to move generally northward within the forecast period and exit the Philippine Area of Responsibility (PAR) within the next 6 hours. Outside the PAR region, DINDO will move over the East China Sea towards either the Korean Peninsula or the coast of eastern China.
- DINDO will likely remain as a tropical storm within the forecast period. Intensification will also be limited outside the PAR region, with a potential for a weakening trend beyond the next 24 hours.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 11:00 AM today.
